To register the computer, laptop, tablet, or phone you are currently using:

1. Connect your device to the wired network or to "The Legacy" WiFi network.
2. Open your web browser and you should be directed to the registration portal.
   a. If your browser does not redirect, you can visit the registration site manually at https://legacystatecollege.connect-device.com/portal
3. Login to the portal using the user name and password

   User Name:

   Password:

4. The device you are using will be registered to your account.
5. You may need to disconnect and reconnect to the wired or WiFi network for immediate access.

To register additional devices (including smart TVs, gaming consoles, streaming devices, etc.):

1. Navigate to https://legacystatecollege.connect-device.com/portal using your phone, tablet, or computer
2. If you connect using a device that you have already registered, you will be automatically logged in. Otherwise, enter your assigned username and password.
3. Click "Devices" in the menu at the top of the page.
4. Under "Add Device" enter the MAC address of the device you wish to register. The "Help me find my MAC address" link will provide instructions for finding the MAC address for commonly used devices.
   a. For your reference, a MAC address can also be labeled as "WiFi Address"
5. Your additional device will now connect to the wired network or to "The Legacy" WiFi network when chosen from that device.

If you have questions or need additional assistance registering your devices, contact us at support@studenthousingtechnologies.com **Please include your property name, unit number, and first and last name to expedite the support process.**

Thank you!
